

2010 Annual Meeting
Chairman Report

Board of Governors Meeting
June 21, 2008

Boy! What an exciting job this is. Man! Is this a big undertaking. I know we are all still excited about the recent Annual Meeting in Lansing and I know it is early in the game, but since we are all getting together I felt an update was appropriate. I know most of you aren't even thinking about 2010, but I can tell you from the chairperson's view – it is not that far away.

I have made a number of proposals to various establishments asking for bids for the annual meeting in 2010. I have responses from some and still waiting for responses from others. I have had some site visits and have more site visits scheduled. I must say that the site visits have been a lot of fun. It is amazing what places will do so you have your meeting there. So far I have not been given any money to choose certain accommodations, but that is still a possibility.

In addition, I have contacted a number of people to serve on committees related to the smooth operation of the meeting and we will be having periodic meeting in the next 2 years to make sure this meeting will be a pleasure for everyone attending.

This is really turning out to be an enjoyable task, one I hope will result in an exciting, enjoyable annual meeting in 2010.

Respectfully submitted

Gloria J. Gonzales,
2010 Annual Meeting Chairperson
